

HYDROPOWERBOX_8,5m

Hydraulic lighting tower

Application fields

TECHNICAL DATA

Dimensions and weight	
Min Dim. (cm)	120x120x270
Max Dim. (cm)	120x120x850
Weight (Kg)	1240

Illuminated area	
4000m ²	

Features	
Rotation	360°
Floodlights	Metal halide
Lamps	4x1000W
Lifting system	Hydraulic
Optionals	Version with led

FEATURES

- Antivandalism light tower placed inside a lockable cabinet
- 8,5m of maximum height
- Galvanized telescopic mast
- Hydraulic lifting system
- Certified wind proof up to 80Km/h
- 4 floodlights 1000W metal halide
- 300 litres fuel tank
- More than 160 hours of running time
- Lifting hooks and pockets for crane and fork-lift
- Aluminium ladder for the lights adjustment
- Floodlights adjustable at 360° or all in frontal position
- Incorporating a 9KVA generating set super-silent 90Lwa, 1500r.p.m.
- Kubota engine
- Control panel
- Digital control system MP24 with full engine protection, and set up for the automatic starting
- 3Kva 230V outlet socket
- Fuel level indicator
- On / off switches for the lamps
- Hour-counter
- Mast Erection Joystick control
- Kit composed by digital timer and light sensor to start and stop the lighting tower automatically
